Custom Industrial Bags – Made to Your Specifications

Poly Plastic Products, a pioneer in blown film extrusion, manufactures polyethylene bags to your specifications employing all forms of prime resins and superior equipment. Our up to date, in-house test laboratory, well trained production personnel, and quality control procedures will ensure your continued satisfaction.

Poly bags are used as bin liners, box liners, drum liners, FDA food bags, furniture covers, gaylord liners, mattress covers, medical and surgical bags, and pallet covers.
